Sunshine Records 88

Official Publications :—

British Meteorological and Magnetic Year Book :
Part III. (1). Daily Readings. 1920 119
Part IV. Hourly Values. 1917 6
Part V. Réseau Mondial (Tables). 1914 321
„ „ „ (Charts). 1910 185
British Rainfall. 1920 320
Cloud Forms, 2nd ed. 1921 118
Commission for Weather Telegraphy, Report of Proceedings of the Third Meeting of, 1920 77
Fernley Observatory, Southport.—Report and Results of Observations. By J. Baxendell. 1920 321
Geophysical Memoirs, No. 18. W. H. Dines 351
International Meteorological Conference, Report of Proceedings of the Fourth. 1919 6
Observer's Handbook, The. 1921 245
Professional Notes, Nos. 15–25 ..... 88, 89, 184, 218, 219, 246, 284, 285

Societies, Lectures, &c. :—

Aeronautical Society, The Royal :—

The Use of Meteorology to Aviation and Vice Versa. Gordon Dobson ..... PAGE 35
Wilbur Wright Memorial Lecture. 1921 104
Scottish Branch 337

Aeronautical Society, Cambridge University :—

Artificial Control of the Weather. Sir Napier Shaw 49, 60

British Association 121, 134, 195, 247, 296
Economic Biologists, Association of 337
Geographical Association :—

The Herbertson Memorial Lecture 90

Geophysical Subjects, meetings for the discussion of 104, 265, 337

The Structure of the Atmosphere up to 20 kilometres 119

Illuminating Engineering Society 368
International Commission for the Exploration of the Upper Air at Bergen 194, 215
„ Meteorological Committee 225
Marine Engineers, Institute of 337

Meteorology—General—*cont.*

Societies, Lectures, &c.—cont. PAGE

Medical Society of London 337

Meteorological Office, Discussions at :—

The position in space of the Aurora Polaris ..... PAGE 7
Exchange of mass in irregular currents in the free air and its consequences. The effects of the exchange of air on climate and the diurnal variation of temperature on the upper air 7
Variation in solar radiation and the weather 34
Antarctic Meteorology 34
Meteorological Optics 67
Radiative equilibrium and atmospheric radiation 68
The law of the geoidal slope and some fallacies in dynamic meteorology 285
On the correlation between the fluctuation of the sunspot area and terrestrial precipitation 286
Is the atmosphere warmed by convection from the earth's surface ? 324
The origin of continents and oceans 324
Atmospheric stirring measured by precipitation 352

Meteorology in Edinburgh, September 1921 247

Meteorological Society, The Royal :—

Forecasting the crops from the weather ..... PAGE 9
A new method of constructing average monthly rainfall maps 37
An unusual pilot balloon trajectory 38
The south-west monsoon 66
The evolution of climate in north-west Europe 91
A brief review of the influence of meteorology on naval warfare 92
Report on the Phenology of the British Isles. 1919-1920 120
Phenology and habitat with special reference to woodlands 121
The causes of errors in forecasting pressure gradients and upper winds 148
The physical structure of cloud forms in the lowest atmosphere 149
Variability of annual mean temperature over Europe and North America 149
Meeting in Edinburgh 121, 195, 247
Soirée 304
On the dynamics of wind 322
The behaviour of pilot balloons at great heights 322
The cloud phenomenon of Nov. 29th, 1920 323
Discussion on Visibility 354

Meteorological Society, The Scottish 3
Parkin Prize of Royal College of Physicians of Edinburgh 44
Optical Society 365
Physical Society 304, 365
Rede Lecture. 1921 ..... 104, 197
Royal Institution, Tyndall Lectures 77

Foreign Institutions, &c. :—

WALKER, MR. GEORGE WALKER 267

Meteorological Office, Staff News :—

Annual Soirée, 1921 22
Croydon Aerodrome cricket team 163
Presentation to Sir Napier and Lady Shaw 141

Meteorological Terminology :—

Cloud Nomenclature. C. C. Newman 190
" " G. C. Simpson 219
" " , problems of 159
"Drought," The word. E. G. Bilham 255
"Fine" or "Fair" 366
"Forecast," The word. C. F. Brooks 127
Meteorological Terminology. Napier Shaw 12

Miscellaneous :—

"British Rainfall" stolen by burglars 22
Exhibition of Scientific Instruments 365
Meteorological Essays, Prizes for, at Enfield 22
" Magazine, Cases for binding the 367
" Magazine, issues out of print 134
Symon's Medal for 1922 335
Errata 162, 231, 297, 344

Observatories and Stations:—

Ascension Island 19
Apia, Samoa, Observatory at 100, 225
" " Meteorological Observations at. Chas. Harding 127
Breslau, A meteorological observatory at 298
Cahir 147
Cape Spartel, Morocco 6
Chatham Island, Observatory at 104
Crathes 33, 148
Dalkeith 147
Distributive stations of the Meteorological Office 350
Falmouth Observatory 349
Guernsey 148
Holyhead 118

Observatories and Stations—*cont.*

	PAGE
Huddersfield	350
Jersey, St. Louis Observatory	20
Laurie Island, South Orkneys, Argentine Meteorological Observatory on	77
Leith	218
Lerwick, Geophysical Observatory at	162
Lisburn	296
Rothamsted, Extension of Meteorological equipment at	74
Rousdon Observatory, fittings for sale	134
Shaftesbury	118
Spurn Head, Reinstallation of Anenograph and Sunshine Recorder	283
Torquay	350
Weston, Newtownbarry	335
Woking	266

Methods of Observation and Computation :—

C.G.S. System, The	298
Collective Weather Reports, Code for	5
Correlative Coefficients, The significance of, F. J. W. W.	20
Fog, mist, and visibility, Code for	99
Humidity Observations as an aid to estimating cloud-height. L. H. G. Dines	226, 362
Modern Units in Meteorology, The case for. F. J. W. Whipple :—	
1. Rainfall	145
2. Pressure	180, 231
Pilot-balloons, Methods of Obtaining the height of : —	
J. Durward	257, 356
J. S. Dines	356
Rainfall Averages, The revised	10
„ Maps, A new method of constructing average monthly	37
Temperatures, Terminal hours for maximum and minimum	75
Snow, Measurement of	265
„ „ „ Chas. Harding	327
Units for Meteorological Work :—	

R. Cross	72	C. J. P. Cave	221
S. F. Hurnard	97	R. P. Dansey	223
E. W. M. Murphy	125	D. W. Horner	223
Basil T. Rowswell	125	L. C. W. Bonacira	255
F. J. Wardale	125	A. McAdie	359
W. F. A. Ellison	149		

Instruments :—

Anemograph, Reinstallation of, at Spurn Head	283
Aneroid, The Seasonal	336
Barometer, A Mercury, for Airships (*illus.*)	193
Barometers, mercurial, Transmission of by rail	160
Cracker balloons for signalling temperature	184
Evaporation tank at Valencia Observatory	104
Forecaster, A Mechanical. E. W. Kitchin	17
Light-Filters, Use of in the observation of pilot balloons	88
Lizard Balloons for signalling the ratio of pressure to temperature	184
Pilot Balloons, The behaviour of at great heights	322
Rain-gauges, On the design of	142
„ „ „ F. L. Halliwell	190
Rate of Rainfall Recorder, A, (*illus.*). N. H. Smith	329
Sunshine Recorder, Reinstallation of, at Spurn Head	283
Stevenson-Screen, Comparison with climatological-screen	284
Templates for use in estimating the duration of rainfall	296

Instruments—*cont.*

Thermometer exposure at Kew Observatory, Richmond :— PAGE
H. Freir 189, 287
G. Weston 288
C. Chree 288
" , Grass Minimum, A safe place for the, ... 44
" Wet-Bulb, Effect of salt spray on the ordinary, at Valencia Observatory 261
Wind-Vane, Meteorological Office standard (*illus.*) 63

Investigations of the Upper Atmosphere :—

Aerial routes, Meteorological Information for the London-Continental 366
Aerial sounding, The Highest. W. R. Gregg 121
Airship N.S. 3, The loss of, (*illus.*) 241
" R. 38, The loss of. W. H. Robertson 325
Airships, A mercury barometer for, (*illus.*) 193
Altitude record by aeroplane 269
Atmosphere, The structure of, over Benson 219
" , The structure of, up to 20 kilometres 119
Aviation, The use of meteorology to 35
Bumpiness, The relation of, to lapse of temperature 218
Cracker balloons for signalling temperature 184
Lizard balloons for signalling the ratio of pressure to temperature 184
Pilot balloon trajectory, An unusual 38
Pilot balloons, A comparison between the double theodolite and tail methods of obtaining the height of :—
J. Durward 257, 356
J. S. Dines 356
" " , The behaviour of, at great heights 322
" " , The use of light filters in the observation of 88
Smoke-rings formed by an aeroplane 266
Soaring-flight : an unsolved riddle 43
Upper air currents, Meteor trails and :—
F. J. W. W. 292
W. F. Denning 326
" , scientific investigation of. E. Gold 215
" , temperature, The effects of exchange of air on the diurnal variation of 7
" winds, The causes of error in forecasting 148
Wind, Variation of, with height at Ballybunion 263
" velocity and direction, Diurnal variation of, at different heights ... 88

Physics of the Atmosphere :—

Atmosphere, The structure of, over Benson 219
" " " up to 20 kilometres 119
Atmospheric pollution and electrical potential gradient, diurnal variation of 205
" " Effect of coal crisis on. L. D. Sawyer 156
" " Aerial photography of industrial towns during coal strike. E. Howarth 186
(*See also* "Fogs.")
Atmospheric stirring measured by precipitation 352
Audibility of the Oppau Explosion in England. H. J. 266, 277
Bumpiness, The relation of, to lapse of temperature 218
Convection from the earth's surface, Is the atmosphere warmed by 324
Currents, Descending, associated with sea breezes. R. D. Batty 187
" irregular, in the free air, Exchange of mass in 7

Physics of the Atmosphere—*cont.*

	PAGE
Currents, vertical air-, Velocity of :—	
J. S. Dines	96
J. Durward	96
D. Brunt	123
„ „ , Effect of, on gun-ranging. C. E. Britton	360
Density, Lizard Balloons for signalling	184
Geoidal slope, Law of	285
Instability, Early morning convective, R. F. T. Granger	126
Optics, Meteorological	67
Rotation of the earth, Is the propagation of waves affected by the (*with a bibliog.*). F. J. W. Whipple	316
Setting sun as a photographic subject, The (*illus.*)	224
Smoke veil, The	365
Sky, Shape of the. H. Jeffreys	173
Upper-air temperatures as evidence for horizontal or vertical movements. W. H. Dines	252
„ „ , Effect of exchange of air on diurnal variation of	7
Visibility. L. H. G. Dines	250
„ V. H. Gatty	251
„ at Deal. R. J. D. Pargeter	50
„ Discussion on	352
„ Exceptional	295
„ „ C. F. Close	329
„ in London	156
„ on the Firth of Clyde. C. F. Priestley	224
„ Sunshine and	132
Wind, On the dynamics of	322

Optical Phenomena :—

Halos, Coronæ, and Parhelia :—	
Lunar Halo and Mock Moons. R. S. Read	69
Observations of the 22° halo with an infralateral arc of contact. G. M. Rattray	256
Optical phenomena :—	
G. R. Hay	93
H. C. King	94
Optical phenomena at Aberdeen (*illus.*). G. A. Clarke	192, 231
Simultaneous halo and corona :—	
C. F. Brooks	95
C. K. M. Douglas	126
Simultaneous lunar halo and corona. C. F. Brooks	69
Solar halo at Eskdalemuir, Notes on a, P. F. Jarrold	128
„ „ , Irregular, and mock suns. R. E. Watson	70, 162
Rainbows :—	
A lunar rainbow in colours. B. A. Keen	16
A rainbow at eye-level? J. E. Grubb	127
Mirage :—	
Mirage across the Bay of Plenty	41
„ at Skegness. R. H. Jenkins	290
„ horizon at sunset (*illus.*)	333
„ in London streets	158
„ on the Gulf of Finland	40

Atmospheric Pressure :

Barometer reading, High, at Valencia Observatory	49
Depression, Sequence of wind changes at different levels in a, R. P. Dansey	291, 344

Atmospheric Pressure—*cont.* PAGE

Modern Units in Meteorology: Pressure. F. J. W. Whipple....180, 231
Pressure, A localised oscillation of 129
Pressure-gradients, The causes of errors in forecasting.... 148
Ratio of pressure to temperature, Lizard balloons for signalling 184

Cosmical Relations:

Eclipse of April 8th, Meteorological observation during the:—
W. W. Bryant 70
H. Nowell ffarington 70
R. Francis Granger 70
Solar radiation and weather, Variation in.... 34
Sun and the weather, The:—
R. M. Deeley 313
A. L. Cortie 358
Sunspot area, and terrestrial precipitation 286
Sunspots and weather (*with a bibliog.*):—
C. E. P. Brooks 113
R. M. Deeley 152
Sunspots, Solar Radiation and 42

Temperature and Radiation:

Temperature:—

January, The record. R. P. Dansey 16
July temperature, Abnormal 158
Maximum and minimum temperatures. Terminal hours for.... 75
Minimum temperatures for the periods 17 h. to 19 h. and 17 h. to 17 h., A comparison of 246
Temperature, Annual, mean, variability of, over Europe and North America 149
„ Cracker balloons for signalling 184
„ distribution affecting duration of sunrise and sunset (*illus.*) 333
„ drybulb, in climatological screen and Stevenson screen, A comparison of 284
„ High, in the Wirral Peninsula. E. F. Robson.... 152
„ lapse of, The relation of bumpiness to 218
„ Oyster breeding and.... 232
„ ratio of pressure to, Lizard balloons for signalling 184
„ upper air, The effect of the exchange of air on the diurnal variation of 7
Temperatures, upper air, as evidence for horizontal or vertical movements. W. H. Dines 252
Warm and dry months in London, Abnormal sequence of 294, 344
Weather in October, Exceptional....266, 291
Winter temperatures, Periodicity in 321

Radiation:—

Atmospheric radiation, Radiative equilibrium and 68
Radiation from the sky....99, 157
Radiation measured at Benson....100, 157, 262, 366
Soaring Flight: Radiation in connection with.... 43
Solar Radiation and the weather, Variation in 34

Aqueous Vapour and Rain:—

Aqueous Vapour:—

Cloud forms, The physical structure of, in the lowest atmosphere.... 149
„ height, Humidity observations as an aid to estimating 362
L. H. G. Dines 226

Aqueous Vapour and Rain—*cont.*

Aqueous Vapour—cont.
